

Testimonials

What our customers are saying.

"My husband and I are very pleased with the ceramic tile job for the shower and bathroom floor. All the floor tiles are level and well spaced in the shower, that was very important to me. You did a wonderful job! We will definitely hire you again and highly recommend you to others."

" I think that it is very rare these days to find a professional tradesman who will take on the little jobs and do them with the same care and expertise of the bigger jobs. Thank you for your attention to detail and perfectionism. It shows. You may quote me." - Elaine from Manhattan

"We have used KBS for large and small projects over the past several years including having a metal building put up and all kinds of different indoor house projects. Keith's prices are fair and competitive and has always been true to his work and his word."

"Keith, did an excellent job on our room and garage addition we found that he was very knowledgeable as well as an incredible worker. But the most valuable quality we found in Keith was that we could really trust him."
